

Cumulative Index 2005

Note: Page numbers of article titles are in **boldface** type.

A

- Acne, laser therapy for, 149
- Actinic keratosis, 238, 243
 - clinical manifestations of, 225
 - course and prognosis of, 226–227
 - definition of, 223
 - diagnosis and differential diagnosis of, 226
 - histopathology of, 225–226
 - history of, 223–224
 - incidence and prevalence of, 224
 - pathogenesis of, 225
 - prevention of, 226
 - risk factors for, 224–225
 - treatment of, 227
- Activities of daily life, activity measures and, 480–481
- Activity measures, activities of daily life and, 480–481
- Acupuncture, in reflex sympathetic dystrophy/complex regional pain syndrome, 592–593
- Advancement flaps, 267
- Alexithymia, 588
- Allograft transplants, facial, experimental, composite
 - full facial and scalp transplant model, 404
 - composite hemifacial transplant model, 405–406
 - hemifacial transplant model of, 403–404
 - immunosuppressive protocol in, 405–406
- Allografts, in neural repair, 613–614
- Amastia, 74, 75
- Amazia, 74
- Amputation, cortical plasticity induced by, 622–623
- Anesthesia, for laser therapy, 144
- Angiokeratoma, 183
- Angioma, tufted, 177
- Anterolateral thigh flap. *See* Thigh, anterolateral flap of.
- Antibiotics, in acute wound care, 203, 204
- Antidepressants, in reflex sympathetic dystrophy/complex regional pain syndrome, 594
- Antiepileptic drugs, in reflex sympathetic dystrophy/complex regional pain syndrome, 594

- Anti-inflammatory medications, in reflex sympathetic dystrophy/complex regional pain syndrome, 593–594
- Apoptosis, cranial suture biology and, 126
- Arteriovenous fistula, 183
- Arteriovenous malformations, clinical staging of, 113
 - complications of, 182
 - definition of, 182
 - management of, 113–114
 - pathogenesis of, 112, 113, 182
 - treatment of, 182
- Artery(ies), cervical, transverse, for reconstruction of scalp and forehead defects, 387
 - for reconstruction of scalp and forehead defects, 386–387
 - malformation of, 181–182
- Articular fractures, simple, management of, 554
- Artocoll/Artecoll, 160
- Athelia, 74, 76
- Axilla, lymphadenectomy of, 256–257
- Axon reflux, 585

B

- Banner flap, 264
- Basal cell carcinoma, chemotherapy in, 242
 - clinical types of, 240
 - differential diagnosis of, 243
 - epidemiology of, 240
 - histologic types of, 240
 - immunotherapy in, 242
 - incompletely excised, 242
 - metastatic, 243
 - Mohs micrographic surgery in, 241
 - morpheaform (sclerosing), 241
 - nodular, 240
 - nonsurgical ablation of, 241–242
 - pigmented, 241, 245
 - recurrent, 242
 - superficial, 241
 - surgical treatment of, 241

- Biofeedback therapy, in reflex sympathetic dystrophy/complex regional pain syndrome, 593
- Bionics, in treatment of brachial plexus lesions, 94
- Biphosphonates, in reflex sympathetic dystrophy/complex regional pain syndrome, 595
- Bite wounds, management of, 204-205
- Blood flow, obstruction of, wound hypoxia in, 209-211
- Blood vessels, for double free flap microvascular anastomosis, 304-305
- malformations of, and hemangiomas, current management of, 99-116
 - history and physical examination in, 99-100
- BMP antagonists, in cranial suture biology, 125-126
- Bone, challenges associated with, for hand surgeon, 537-547
- clinical challenges and solutions associated with, 543-544
 - fracture healing and, 542-543
 - pathology and pathophysiology of, 541-543
 - vascular supply and neural innervation to, 540-541, 542
- Bone graft, vascular, for oromandibular reconstruction, 369
- Bone matrix, remodeling of, 539-540
- Bone replacement, current techniques for, 123
- Bone scan, for diagnosis of reflex sympathetic dystrophy/complex regional pain syndrome, 589-590
- Bone tissue engineering, 128-131, 544-547
- cellular therapies and, 130-131
 - for complex structures, 131
 - in facial trauma, 128
 - scaffolds for, 129-130
 - tissue regeneration in, 128-129
- Botulinum injection, in obstetric brachial plexus palsy, 92
- Bowenoid papulosis, 245
- Bowen's disease, 245
- clinical manifestations of, 228
 - course and prognosis of, 229
 - definition of, 227
 - differential diagnosis of, 228-229
 - histology of, 228
 - history of, 227
 - incidence and prevalence of, 227
 - pathogenesis of, 228
 - treatment of, 229
- Brachial plexus, avulsed roots of, re-implantation of, in treatment of brachial plexus lesions, 93
- injury(ies) of, electrophysiologic assessment of, 83
 - in infant, management of, 79-98
 - mechanism of, 80-81
 - primary surgery in, 85-88
 - strategies for, 88
 - lesions of, nerve transfers in, 90-91
 - physical therapy in, 91-92
 - tendon transfers in, 90
 - treatment of, bionics in, 93-94
 - future directions in, 93-94
 - re-implantation of avulsed roots in, 93
 - stem cells in, 94
 - repair of, primary, rationale for, 83-85
 - secondary deformities of, correction of, 88-90
- Brachial plexus palsy, obstetric, botulinum injection in, 92
- epidemiology of, 79-80
 - initial assessment in, 81-83
 - reconstruction in, outcomes of, 92-93
 - treatment of, algorithm for, 84
- Brain, cortical reintegration of, following transplantation of hand, 466
- Breast, abnormalities of, accessory nipples, 66
- deformational, 69-71
 - hyperplastic, 66-69
 - hypoplastic, 71-76
 - iatrogenic, 69
 - pediatric, 66
 - anterior thoracic hypoplasia of, 74
 - bilateral absence of, 75
 - burns of, 70-71, 74
 - development of, 65
 - giant fibroadenoma(s) of, 68, 69
 - growth of, aesthetic considerations in, 65-66
 - hemangioma of, 70, 72
 - hyperplasia of, pediatric, 68
 - hypoplasia of, following thoracostomy tube placement, 69, 71
 - juvenile hypertrophy of, 68-69, 70
 - problems of, pediatric, treatment of, 65-78
 - traumatic anomalies of, 70-71, 73
 - tuberous deformity of, 72-73, 75
 - tumor excision from, 70
- Burn injury, acute, 187-193
- fluid resuscitation in, 189
 - grafting in head and neck in, 192
 - inhalation injury in, 189-190
 - initial excision and wound closure in, 191-192
 - local response to, 187-188
 - management of, 188-189
 - pathophysiology of, 187-188
 - reconstruction in, 192
 - signs and symptoms of, 191
 - surgical treatment of, 191-192
 - systemic response to, 188
 - wound assessment and management in, 190-191
- of hand. *See Hand, burned.*

C

- Calcitonin, in reflex sympathetic dystrophy/complex regional pain syndrome, 594
- Cancer(s), abnormalities of wound healing in, 211
- of head and neck, classification of, 362-363
 - epidemiology of, 361-362

- of skin. See *Skin cancer*.
 - resection of, oromandibular reconstruction after, 361-375
 - Capillary-lymphaticovenous malformation, 114
 - Capillary vascular malformations, 179
 - Cardiovascular insufficiency, abnormalities of wound healing in, 212
 - Carpal tunnel syndrome, risk factors for, case-control study of, 534
 - Causalgia, and chronic regional pain syndrome type II, 584
 - Cellular therapies, and bone tissue engineering, 130-131
 - Cervical artery, transverse, for reconstruction of scalp and forehead defects, 387
 - Cheek, advancement techniques of, in reconstruction of lips, 433-434, 435
 - reconstruction of, deltopectoral flap and temporal flap for, 304
 - Chemotherapy, impairment of wound healing and, 212
 - in basal cell carcinoma, 241
 - in squamous cell carcinoma, 244
 - Children, with congenital malformations of upper extremity, functional evaluation of, 471-483
 - Child(ren), problems of breast in. See under *Breast*.
 - Cleft lip, and cleft palate, treatment of, international trends in, 11-15
 - preoperative orthopedic appliances and, 11
 - survey of, 11, 12
 - lip adhesion in, 12
 - bilateral, management of, 12, 13
 - unilateral, management of, 12
 - Cleft nose, management of, 12, 13
 - Cleft palate. See also *Cleft lip, and cleft palate*.
 - management of, 13
 - Clonazepam, in reflex sympathetic dystrophy/complex regional pain syndrome, 594
 - Composite tissue allograft transplants, current clinical applications of, 402
 - for reconstruction of scalp and forehead defects, 387
 - immunosuppressive strategies used in, 402-403
 - Congenital defects, free tissue transfer in, 47
 - Consumptive coagulopathy, 174
 - Contractures, web space. See *Web space contractures*.
 - Cortical plasticity, after peripheral nerve injury, 623
 - amputation-induced, 622-623
 - and plastic surgery, 623-632
 - conditions activating, 632-633
 - experimental techniques for studying, 621-622
 - following upper extremity injury and reconstruction, 619-636
 - Corticosteroids, in hemangioma, 104-105
 - CosmoDerm/CosmoPlast, 153-154
 - Cranial suture biology, BMP antagonists in, 125-126
 - development of, 124
 - genetics and, 124-125
 - studies in, 123
 - Cranial sutures, embryonic origins of, 124
 - Cranial vault, reconstruction of, in defects of scalp and forehead, 381, 383
 - Craniosynostosis, genetic basis of, 124-125
 - lambdoid, 55-56
 - and deformational plagiocephaly, compared, 57, 58
 - Cranium, asymmetry of, head molding in, 53
 - Cricoid, and trachea, reconstruction of, 299-300
 - tumors of, management of, 296
 - Cubital tunnel syndrome, treatment options in, decision analysis and, 535
 - Cutaneous horn, 238-239
 - Cutaneous lasers, 141-150
 - Cutaneous vascular lesions, 171-186
 - Cutis marmorata telangiectatica congenita, 183
 - Cymetra, 158-159
-
- ## D
-
- Decision making, decision analysis in, 456-458
 - decision tree modeling in, 456-458
 - expected utility decision making, 455-458
 - problems with, 458-459
 - expected utility theory in, 459
 - expected value, 460
 - multi-attribute utility theory (MAUT) and, 455-456
 - prospect theory in, 459-460
 - quality-adjusted life years and, 456
 - regret theory in, 460
 - risk attitudes in, 458
 - utility in, 455-456
 - Deltopectoral flap, 303
 - and temporal flap, for cheek reconstruction, 304
 - Dermadeep, 161
 - Dermalive, 160-161
 - Diabetes mellitus, abnormalities of wound healing in, 211-212
 - Digit(s), amputation of, in web space
 - contractures, 514
 - pediatric, replantation of, 2-3
 - general concepts of, 2
 - Disease, chronic, impairment of wound healing due to, 213
 - Distraction osteogenesis, 126-128
 - biology of, 123
 - mechanobiology of, 127-128
 - molecular biology of, 127
-
- ## E
-
- Ear, melanoma of, excision and closure of, 251-252
 - Edema control, in acute wound care, 205
 - in chronic wound care, 215

- Electrical stimulation, implanted, in reflex sympathetic dystrophy/complex regional pain syndrome, 591-592
- Electromagnetic spectrum, 142
- Erb's palsy, 81
- Escharotomy, for inpatient care of burned hand, 519-520
- Esophagus, pharyngo-cervical reconstruction of, 339-346
 - free jejunal flap in, 340, 341
- Exercises, neck, in deformational plagiocephaly, 60
- Extremity(ies). See also *Lower extremity(ies)*; *Upper extremity(ies)*.
 - congenital giant nevus of, tissue expansion in, 39-40, 41
 - congenital melanocytic nevi of, treatment of, 17
 - of pediatric patient, tissue expansion in, 39-40
- Eyelid, melanoma of, excision and closure of, 252

F

- Face, allotransplantation of, 401-409
 - media-related issues in, 407-408
 - pros and cons of, 407
 - psychologic, social, and ethical issues in, 406-407
 - questions on future for, 408
- composite tissue allograft transplants of, 402
- congenital melanocytic nevi of, treatment of, 16
- defects of, reconstruction after resection of skin cancers, 275-285
 - cases illustrating, 279-283
 - complications of, 277
 - discussion of, 283-284
 - immediate postoperative care in, 278
 - operative considerations for, 277-278
 - postoperative considerations in, 278-279
 - preoperative considerations for, 275-276
- lower, through and through defects of, 327-337
 - aesthetic and functional considerations in, 328-330
 - bony reconstruction in, 329
 - classification of, 328
 - clinical cases illustrating, 332-334, 335
 - common patterns of disease in, 327-328
 - cutaneous coverage in, 329
 - decision-making in, 328
 - fibula flap for, 331-332
 - flap selection for, 330-331
 - iliac crest flap for, 332
 - mucosal lining and oral cavity in, 329
 - patient factors and, 329
 - provision of special functions in, 329-330
 - radial forearm flap for, 331
 - reconstructive options in, 330
 - scapular/parascapular flap for, 331
 - size of, 329
 - surgical outcomes of, 334-336
- middle. See *Midface*.
 - trauma to, bone tissue engineering in, 128
- Facial skin fillers, 151, 153
- Fascian, 159
- Fasciocutaneous flaps, in defects of scalp and forehead, 383-385
- Fat, as skin filling substance, 154-155
- Feet, melanoma of, 253
- Fibroadenoma(s), giant of breast, 68, 69
- Fibroplasia, late phase, in wound healing, 199
- Fibula flap, for through and through defects of lower face, 331-332
 - free, for oromandibular reconstruction, 367-368
- Fibula osteocutaneous flaps, and iliac flaps, for oral lining and mandibular bone reconstruction, 305
- Fibula osteo-septocutaneous flap, 303, 422, 428
 - advantages of, 424-425
 - anatomy of, 426
 - donor site for, 426-427
 - elevation technique for, 426
- Flaps, for reconstruction of head and neck, 421
- Fluoroquinolones, dispensed in Canada and United States, 496, 497
 - musculoskeletal injury associated with, 495-502
 - pathologic changes in tendons associated with, 496
- tendon injury induced by, agents implicated in, and duration of treatment, 498
 - animal and in vitro studies of, 496
 - clinical aspects of, and onset of, 498
 - clinical overview of, 496-499
 - clinical reports of, 496
 - in hand, 498, 500-501
 - legal implications of, 499-502
 - locations of, 498
 - mechanism of, 496
 - patient demographics and, 498
 - risk factors for, 496
 - scope of problem of, 495
 - treatment of, 499
 - type of, 498-499
- Forearm, pediatric, replantation of, 3-4
 - general concepts of, 2
- Forearm vascular carrier, two-stage, for laryngotracheal reconstruction, 299
- Forehead. See also *Scalp, and forehead*.
 - anatomy of, 378
- Foreign body, as cause of impairment of wound healing, 211
- Fracture(s). See also specific fractures.
 - management of, principles of, 554
 - of hand. See *Hand, fractures of*.
 - stability of, 554
- Fracture healing, 542-543
- Free flap(s), advantages of, 310, 311
 - commonly used in oromandibular defects, 367-372

- double, in reconstruction of head and neck, 303-308
 - case report of, 305, 306, 307
 - microvascular anastomosis for, 304-305
 - patient survival rate following, 306-307
 - surgical sequence for, 305-306
- indications for, 304
- effects on postoperative swallowing and speech rehabilitation, 344-345
- fibular, for oromandibular reconstruction, 367-368
- for midface reconstruction, characteristics of, 316
- for reconstruction of lips, 435-442
- microsurgical, 421
- Free forearm flap, for laryngotracheal reconstruction, 297
- Free jejunal flap, complications of, 343
 - in pharyngo-cervical esophageal reconstruction, 340, 341
- Free tissue transfer, 303
 - for reconstruction of zone I skull base defects, 394
 - in children, congenital defects requiring, 47
 - defects requiring, etiologies of, 45
 - donor site selection for, 48-51
 - growth issues and, 51
 - in microtia patients, 47
 - in Romberg's hemifacial atrophy, 47, 48
 - in tumors, 47-48, 49
 - technical considerations for, 51
 - trauma as reason for, 45-47
 - in laryngotracheal reconstruction, 297-299

G

- Glossectomy defects, total and near-total, reconstruction for, 411-419
 - function results following, 411
 - motor innervation for, 416-418
 - tissue bulk for, 411-412
- Glottis, 293
 - carcinoma of, management of, 295-296
- Gore-Tex, 161
- Gorlin syndrome, 238
- Gracilis muscle flap, for reconstruction of lips, 437-439
- Granuloma, pyogenic, 106, 177-178
- Grasp, fine, assessment of, 478
 - gross, assessment of, 478
- Grip and pinch strength, measurement of, 476
- Gynecomastia, 67-68

H

- Hair, removal of, lasers for, 146-148
- Hair follicle, life-cycle phases of, 163-164
- Hair restoration, 163-170
 - graft dissection for, 165-167
 - graft insertion for, 165, 166, 167, 168-169
- micrografts, applications of, 165
- minigrafts, applications of, 165
 - technique of, 165
- patient selection for, 164
- problems and complications of, 169
- Hand, burned, injury patterns and anatomic considerations in, 518-519
 - inpatient care of, escharotomy for, 519-520
 - standard nonoperative measures for, 520-521
 - surgical decisions in, 521-522
 - versus outpatient care of, 519
 - management of, 526
 - initial evaluation in, 519
 - late outcomes of, 525-528
 - standardized approach to, 519-525
 - optimizing long-term care outcomes in, 517-529
 - surgery in, 522-523
 - first web space and, 525
 - operative technique for, 523-525
 - postoperative care in, 525
- congenital malformations of, aim of optimal upper limb function in, 471
- evidence-based practice and, 472
- existing outcome studies in, evaluation of, 471-473
- literature review and, 472-473
- cosmesis and, measurement of, 477
- fluoroquinolone-induced tendon injury of, 498, 500-501
- fractures of, anatomic fracture reduction
 - parameters and, 552-553
 - anatomic parameters and functional correlations in, 553-554
 - closed reduction of, 549-561
 - implants and fixation procedures replacing, 551
 - loss of, management of, 559
 - closed simple, management of, 554-559
 - communitied, management of, 559-560
 - complications of, 560
 - displaced simple, with stable configuration, 555-557, 558, 559
 - with unstable configuration, 557-558
 - evaluation of, 552
 - irreducible simple, management of, 558
 - minimally displaced closed, management of, 555
 - rehabilitation following, 560
 - undisplaced closed, management of, 554-555
- function of, definition of, 473-475
 - essential components of, 476
 - levels of, randomized control trials of, 475
 - measurement of, 475-481, 476-481
- functional assessment of, 474-475
 - developmental considerations and, 481
 - essential components of, 475-476
 - future directions in, 481-482

- functioning, computer modeling of, as educational tool, 642
 - attributes of, 638
 - for study of gesturing, 639-640
 - "helping hand" as, 638-639, 640
 - in coordination and discoordination exploration, 640
 - in injury exploration, 640
 - in reconstructive analysis, 640-641
 - to demonstrate integrating muscle function, 640, 641-642
 - uses of, 635-641
- grip and pinch strength and, measurement of, 476
- injuries of, lost-time, for both sexes, in Ontario Workplace Safety Board study, 490, 491
 - for female claimants, in Ontario Workplace Safety Board study, 490, 491
 - for male claimants, in Ontario Workplace Safety Board study, 491
 - Ontario Workplace Safety Board study, 487
- lost-time claims, by part of body, 488
- work-related, 485-493
 - profiling of, in Ontario, Canada, 490-492
 - wage replacement benefits and, 492
- melanoma of, 253, 254
- pediatric, deformities of, reconstruction of, 1
 - replantation of, 3
 - general concepts of, 2
- prehension and, measurement of, 477-478
- range of motion of, measurement of, 476
- sensation in, evaluation of, 476-477
- surgery of, case-control studies of, 532-533
 - clinical research in, composition of study sample and, 532
 - decision analysis in, 534-535
 - generalizability and, 531-532
- cross-sectional study of, 533-534
- economic analysis in, 573-574
- health services research databases and, 535-536
- medical decision making in, 453-461
 - abbreviations associated with, 454
 - expected utility decision making, 455-459
 - normative versus descriptive decision making, 454
 - terms associated with, 453-454
- nonrandomized clinical research in, strategies for, 529-536
- randomized clinical research in, factors limiting use of, 531
 - important characteristics of, 532
- randomized controlled trials in, challenges in creating, 563-573
 - concealment and blinding in, 569-570
 - consolidated standards of reporting, 568-569
 - design challenges in, 569-573
 - differential care and, 572
 - "hand surgeon culture" and, 574
 - intention-to-treat analysis and, 571-572
 - items in report of, 566-567
 - loss of follow-up and, 570-571
 - of levels of hand function, 475
 - phases of, flow diagram of progress through, 568
 - prognostic factors and, 567
 - randomization and, 569
 - sample size of, treatment effect and implications of, 572-573
 - surgical equipoise and, 572
 - surgical learning curve and, 569
- tissue expansion in, 513-514
- transplantation of, chronic rejection following, 467
 - clinical assessment and functional outcomes of, 465-467, 468
 - cortical reintegration of brain following, 466
 - decision for, decision tree modeling for, 456-457
 - modern era of, 464-465
 - perspectives on, 463-470
 - tolerance induction and, 467-468
- Hand and upper extremity clinics, specialty, development of, 488-490
- Hand program, development of, at Downsview Rehabilitation Center, 486-488
- Hand surgeon, bone challenges for, 537-547
- Hand therapy, in reflex sympathetic dystrophy/complex regional pain syndrome, 595
- Handrix, 642
- Head and neck, cancer of, classification of, 362-363
 - epidemiology of, 361-362
- congenital giant nevus of, tissue expansion in, 38-39, 40
- microsurgery of. *See Microsurgery, of head and neck.*
- microsurgical workhorse flaps in, 421-430
 - discussion of, 427-428
- of pediatric patient, tissue expansion in, 38-39
- reconstruction of, double free flaps in, 303-308
 - case report of, 305, 306, 307
 - microvascular anastomosis for, 304-305
 - patient survival rate following, 306-307
 - surgical sequence for, 305-306
- flap combinations for, 305
- flaps for, criteria for, 421
 - types of, 421
- microsurgical flaps/techniques in, methodologic issues, 347-359
- Head molding, in asymmetry of cranium, 53

 - Tissue expansion, historical review of, 35
 - in congenital giant nevus, of extremity, 39–40, 41
 - of head and neck, 38–39, 40
 - of trunk, 40, 42
 - in hand, 513–514
 - in pediatric patients, 35–44
 - antibiotic use in, 36
 - complications of, 40–43
 - expander in, choice and placement of, 36–37
 - expander inflation in, 37
 - expander with flaps in, 37–38
 - in extremities, 39–40
 - in head and neck, 38–39
 - in trunk, 40
 - indications for, 36
 - operative technique for, 36–38
 - regional considerations in, 38–40
 - Tissue perfusion, improvement of, for wound healing, 200–201
 - Tissue regeneration, in bone tissue engineering, 128–129
 - Tissue transplantation, composite, early clinical experience with, 463–464
 - Tobacco, impairment of wound healing due to, 213
 - Toe transfer(s), following thumb amputation, 623–629
 - cortical activation and, 624, 625
 - key points following, 626, 628–629
 - Tolerance induction, and transplantation of hand, 467–468
 - Tongue, defects of. See *Glossectomy defects.*
 - total or near-total reconstruction of, 10 years experience with, 412–413
 - appearance of tongue following, 415
 - external carotid artery in, 413
 - motor innervation and, 416–418
 - patients undergoing radiotherapy before, 412
 - radiotherapy following, 417, 418
 - recipient site complication rates in, 413

- Semmes-Weinstein monofilament testing
 - following, 415-416
 - sensory reinnervation in, 413-415
 - two-point discrimination test following, 415
 - types of flaps used for, 412-413
- Topical agents, toxicity of, 202
- Torticollis, muscular, with deformational plagiocephaly, 56, 60
- Trachea, anatomy and physiology of, 293-295
 - cricoid and, reconstruction of, 299-300
 - tumors of, management of, 296
- Transcranial magnetic stimulation, to study cortical plasticity, 621-622
- Transcutaneous nerve stimulation, in reflex sympathetic dystrophy/complex regional pain syndrome, 593
- Transposition flaps, in defects of scalp and forehead, 380
- Trauma, free tissue transfer in, 45-47
- Trunk, congenital giant nevus of, tissue expansion in, 40, 42
 - congenital melanocytic nevi of, treatment of, 16
 - of pediatric patient, tissue expansion in, 40
- Twins, conjoined, craniopagus, 17-26
 - classification of, 17-18
 - dural sinuses in, 18
 - management of, case of review of, 27-34
 - staged techniques in, 27
 - surgical history of, 18-19
 - female-to-male ratio of, 17
 - jointed at head, types of, 17

U

- Ulcers, venous, impairment of wound healing in, 210
- Ultraviolet radiation, skin cancer and, 239
- Upper extremity(ies), congenital malformations of, functional evaluation in children with, 471-483
 - functional assessment of, decision tree for, 481, 482
 - pediatric, replantation of, 1-10
 - indications for, 1-2
 - outcomes of, 4-5
 - technique of, 2-4

V

- V-Y plasty, 267
- Vascular anomalies, classification of, 171
- Vascular lesions, cutaneous, 171-186
- Vascular malformations, 99, 100
 - capillary, 107, 108
 - classification of, 107
 - combined, 182-183
 - complex/combined, 114-115
 - treatment of, 114
 - complications of, 178-179
 - definition of, 178

- epidemiology of, 178
- pathogenesis and natural history of, 178
- treatment of, 179
 - with syndromic associations, 115
- Vascular tumors, 171-176
- Vascularized carriers, for laryngotracheal reconstruction, 297
- Velopharyngeal incompetence, management of, 13
- Venous malformations, 180-181
 - cervicofacial, 111
 - of extremity, 112
 - pathogenesis of, 110-111
 - treatment of, 112-113
- Venous supply, for reconstruction of scalp and forehead defects, 387
- Verrucous carcinoma, 245

W

- Web space, first, management of burned hand and, 525
- Web space contractures, causes of, 505
 - digital amputation in, 514
 - first web space, effects of, 506-507
 - five-flap "jumping man" flap in, 509, 510
 - local flaps in, 508-509
 - management of, 505-516
 - prevention of, 506
 - regional and free flaps in, 509-511
 - skin grafts in, 507-508
 - surgical techniques in, 507-514
 - thumb-index, 511, 512, 513
- Worker's compensation legislation, in North America and Western Europe, 486
 - in Ontario, Canada, 485-486
- Workplace Safety and Insurance Board, Ontario, Canada, 486, 487, 488, 489-491, 492
- Wound dressings, for chronic wounds, 215, 217
 - in acute wound care, 203-204
- Wound healing, factors impairing, 200
 - impairment of, extrinsic factors in, 211-213
 - in ischemia and wound hypoxia, 209-211
 - intrinsic factors in, 209-211
 - inflammatory phase of, 195-197
 - intermediate phase of, 197-198
 - late phase of fibroplasia in, 198-199
 - normal, concepts of, 195-201
 - promotion of, in acute wounds, 200-201
 - scar remodeling in, 199-200
 - wound contraction in, 199
- Wound infection, definition of, 210
- Wounds, acute, 195-208
 - care of, 201-206
 - promotion of wound healing of, 200-201
 - rehabilitation in, and prevention of, 205-206

chronic, 209–222

coverage of, 217–219

debridement of, 214–215

edema control in, 215

evaluation and management of, 213–215

examples of, 209

hyperbaric oxygen therapy in, 217

in impairment of wound healing. *See* Wound*healing, impairment of.*

nonsurgical treatment of, 219

pharmacology in, 215–217

prevention of recurrence of, 219

wound dressings for, 215, 217

closure of, in acute wound care, 203

debridement of, in acute wound care, 202

preparation of, in acute wound care, 202–203

X

Xeroderma pigmentosum, 237–238

Z

Z-plasty, 265–266

Zyderm/Zyplast, 152–153
